

Louise wrote that he had had an interview at an aircraft parts mfg. place in Oceanside. She said she'd try to keep u informed as to what she would find out just incase he keeps to his tradition of writer's cramp-

Ken will be home tonight probably , unless he goes skiing-last week he thought they might but couldn't find enough people who could go or something-He doesn't have to take a full course this term to have all his requirements in for his degree so saved a little money that way-I don't know when graduation is yet-doesn't seem possible that he's soon to be out of school! Some one at the place where he works wanted to know if he wasn't going to go on and get his masters right away- but he says not-

I must stop and get to work-this is the last day of the postal quarter and I will be coming back to work a couple of hours this afternoon too-I wonder if I'll ever get our income tax forms done and mailed by April 15th! Ugh-

Write soon and catch us up on the news-

Much love,

Mom & Dad

How do you like
your brother's new look?
He looks taller than
Jerry too but was just
weas the Conqueror -

We pursued very hot

Georgia campaign but it's
not bad -
